

WISDOM SENYA KOBLA AGBETSIAFA

UI/UX Designer

Accra, Ghana · +233 54 555 4665 · wisdomska@gmail.com

Portfolio: wisdomska.framer.ai/projects · linkedin.com/in/wisdomska

SUMMARY

UI/UX designer with 3+ years designing websites, web apps and mobile apps end to end — user research and prototyping through to layout, colour and interaction detail. Experienced working remotely and independently across concurrent product teams, and moving further into frontend development.

EXPERIENCE

UI/UX Designer (National Service) | AmaliTech Nov 2025 – Present

Kumasi, Ghana

- Designed Airliner, a flight and hotel booking platform, from user research through to high-fidelity prototypes.
- Delivered interface designs and build-ready specifications for an accessible chat application, Foodtopia, PantryPal and the Public Holiday Project.

Lead UI/UX Designer | DEXT Consortium (Part-time) Mar 2024 – Present

Remote — previously UI/UX Designer (Sep 2023 – Mar 2024) and UI/UX Design Intern (May 2023 – Sep 2023)

- Promoted from intern to lead designer in ten months, taking ownership of design direction across the WellthAI product family.
- Led design for the WellthAI platform, Health Store and Health Chatbot, each from research through to high-fidelity prototypes.
- Built a component library and design token system spanning all three products, so new screens are assembled from established patterns instead of designed from scratch.
- Worked directly against React.js codebases so designs reached production matching intent.

UI/UX Designer | TransactShield Africa Limited (Part-time) Dec 2024 – Jan 2026

Remote

- Delivered interface and graphic design for the ClickInsure web app, the ClickInsure mobile app and the TransactShield website.
- Produced interactive prototypes that let stakeholders review and sign off on flows before build began.

Freelance UI/UX Designer | Independent Client Work

Remote

- Designed Yenko, a logistics and delivery service, covering both the customer-facing mobile app and the operations admin dashboard.
- Designed the Protz mobile app end to end, from client brief through to delivered prototypes.
- Designed the Siastes website and mobile app as a single product for a Toronto-based client, delivered end to end across time zones.

Graphic Designer | Techora Solutions (Contract) Feb 2025 – Present

Remote

- Built a recurring content series and campaign carousels that gave the brand a repeatable publishing format rather than one-off posts.

SKILLS & TOOLS

Design: UX Research · Interaction Design · Wireframing · Prototyping · Visual & Graphic Design · Design Systems · Accessibility

Tools: Figma · Framer · Canva · Recraft · Magnific · CapCut

Frontend: React.js · design-to-code handoff
